| 4'-OH-Bifenthrin                     | 4'-OH-Bifentrina                         |
| Acetamiprid                          | Acetamiprida                             |
| Acetochlor                           | Acetochlor                               |
| Acibenzolar-S-Methyl                 | Acibenzolar-S-Metil                      |
| Allethrin                            | Aletrina                                 |
| Aminopyralid                         | Aminopirralida                           |
| APF (Flumioxazin Metabolite)         | APF (Metabolito de Flumioxazina)         |
| Atrazine                             | Atrazina                                 |
| Atrazine, 2-Hydroxy                  | Atrazina, 2-Hidroxi                      |
| Atrazine, Desethyl                   | Atrazina, Desetil                        |
| Atrazine, Desisopropyl               | Atrazina, Desisopropil                   |
| Azoxystrobin                         | Azoxistrobina                            |
| Benefin                              | Benefin                                  |
| Bentazon                             | Bentazón                                 |
| Benzobicyclon                        | Benzobiciclón                            |
| Benzovindiflupyr                     | Benzovindiflupir                         |
| Bicyclopyrone                        | Biciclopirona                            |
| Bifenthrin                           | Bifentrina                               |
| Boscalid                             | Boscalida                                |
| Boscalid Metabolite - M510F01 Acetyl | Metabolito de Boscalida - M510F01 Acetil |
| Broflanilide                         | Broflanilida                             |
| Bromoxynil                           | Bromoxinil                               |
| Bromuconazole                        | Bromuconazol                             |
| Butralin                             | Butralina                                |
| Captan                               | Captán                                   |
| Carbaryl                             | Carbaril                                 |
| Carbendazim                          | Carbendazima                             |
| Carbofuran                           | Carbofurano                              |
| Carboxin                             | Carboxina                                |
| Chlorantraniliprole                  | Clorantraniliprol                        |
| Chlorfenapyr                         | Clorfenapir                              |
| Chlorothalonil                       | Clorotalonil                             |
| Chlorpyrifos                         | Clorpirifós                              |
| Chlorpyrifos Oxon                    | Clorpirifós Oxón                         |
| cis-DCVA                             | cis-DCVA                                 |

|                         |                      |
|-------------------------|----------------------|
| Clethodim               | Cletodim             |
| Clomazone               | Clomazona            |
| Clothianidin            | Clotianidina         |
| Clothianidin Desmethyl  | Desmetilclotianidina |
| Coumaphos               | Coumafos             |
| Cyantraniliprole        | Ciantraniliprol      |
| Cyazofamid              | Ciazofamida          |
| Cyclaniliprole          | Ciclaniliprol        |
| Cycloate                | Cicloato             |
| Cyfluthrin              | Ciflutrina           |
| Cyhalofop-Butyl         | Cihalofof-butil      |
| Cyhalothrin             | Cialotrina           |
| Cymoxanil               | Cimoxanilo           |
| Cypermethrin            | Cipermetrina         |
| Cyproconazole           | Ciproconazol         |
| Cyprodinil              | Ciprodinil           |
| DCPA                    | DCPA                 |
| DCPMU                   | DCPMU                |
| DCPU                    | DCPU                 |
| Deltamethrin            | Deltametrina         |
| Desthio-Prothioconazole | Destio-protioconazol |
| Diazinon                | Diazinón             |
| Diazinon Oxon           | Diazinón Oxón        |
| Dicamba                 | Dicamba              |
| Dichlorvos              | Diclorvos            |
| Difenoconazole          | Difenoconazol        |
| Dimethenamid-p          | Dimetenamida-p       |
| Dimethomorph            | Dimetomorf           |
| Dinotefuran             | Dinotefurano         |
| Dithiopyr               | Ditiopir             |
| Diuron                  | Diurón               |
| EPTC                    | EPTC                 |
| Esfenvalerate           | Esfenvalerato        |
| Ethaboxam               | Etaboxam             |
| Ethalfuralin            | Etalfluralina        |
| Etofenprox              | Etofenprox           |
| Etoxazole               | Etoxazol             |
| Famoxadone              | Famoxadona           |
| Fenamidone              | Fenamidona           |
| Fenbuconazole           | Fenbuconazol         |
| Fenhexamid              | Fenhexamida          |
| Fenpropathrin           | Fenpropatrina        |
| Fenpyroximate           | Fenpiroximato        |
| Fipronil                | Fipronil             |

|                             |                                 |
|-----------------------------|---------------------------------|
| Fipronil Desulfinyl         | Fipronil Desulfinil             |
| Fipronil Desulfinyl Amide   | Fipronil Desulfinil Amida       |
| Fipronil Sulfide            | Sulfuro de fipronil             |
| Fipronil Sulfone            | Fipronil Sulfona                |
| Flazasulfuron               | Flazasulfurón                   |
| Flonicamid                  | Flonicamid                      |
| Florpyrauxifen-Benzyl       | Florpirauxifen-Bencil           |
| Fluazinam                   | Fluazinam                       |
| Flubendiamide               | Flubendiamida                   |
| Fludioxonil                 | Fludioxonil                     |
| Fludioxonil Acid Metabolite | Metabolito ácido de fludioxonil |
| Flufenacet                  | Flufenacet                      |
| Fluindapyr                  | Fluindapir                      |
| Flumetralin                 | Flumetralina                    |
| Flumioxazin                 | Flumioxazina                    |
| Fluopicolide                | Fluopicolida                    |
| Fluopyram                   | Fluopiram                       |
| Fluoxastrobin               | Fluoxastrobina                  |
| Flupyradifurone             | Flupiradifurona                 |
| Fluridone                   | Fluridona                       |
| Fluroxypyr                  | Fluroxipir                      |
| Flutiacet-Methyl            | Flutiacet-Metil                 |
| Flutianil                   | Flutianil                       |
| Flutolanil                  | Flutolanil                      |
| Flutriafol                  | Flutriafol                      |
| Fluxapyroxad                | Fluxapiroxad                    |
| Fomesafen                   | Fomesafen                       |
| Halauxifen-methyl ester     | Éster metílico de halauxifen    |
| Hexazinone                  | Hexazinona                      |
| Imazalil                    | Imazalil                        |
| Imazapyr                    | Imazapir                        |
| Imazethapyr                 | Imazetapir                      |
| Imazosulfuron               | Imazosulfurón                   |
| Imidacloprid                | Imidacloprid                    |
| Imidacloprid desnitro       | Desnitro de imidacloprid        |
| Imidacloprid Olefin         | Olefina de imidacloprid         |
| Imidacloprid Urea           | Urea de imidacloprid            |
| Imidacloprid, 5-Hydroxy     | 5-Hidroxi de imidacloprid       |
| Indaziflam                  | Indaziflam                      |
| Indoxacarb                  | Indoxacarb                      |
| Ipconazole                  | Ipconazol                       |
| Iprodione                   | Iprodiona                       |
| Isofetamid                  | Isofetamida                     |
| Kresoxim-Methyl             | Metilcresoxim                   |

|                                |                                 |
|--------------------------------|---------------------------------|
| Malathion                      | Malatión                        |
| Malathion Oxon                 | Oxón de malatión                |
| Mandestrobin                   | Mandestrobina                   |
| Mandipropamid                  | Mandipropamida                  |
| Mefentrifluconazole            | Mefentrifluconazol              |
| Mesotrione                     | Mesotriona                      |
| Metalaxyl                      | Metalaxil                       |
| Metalaxyl Alanine Metabolite   | Metabolito de metalaxil-alanina |
| Metconazole                    | Metconazol                      |
| Methamidophos                  | Metamidofos                     |
| Methoprene                     | Metopreno                       |
| Methoxyfenozide                | Metoxifenozida                  |
| Methylparathion                | Metilparatión                   |
| Metolachlor                    | Metolaclor                      |
